Organizer

Tsutsu

A simple, humble organizer but an invaluable classic.

You can choose the size, depending on your storages needs. Tsutsu will change character when used in the kitchen, bathroom, living room or work space. The base is stable, and provides storage for things to stand upright. Made from ecofriendly material.

Minimal beauty with a luxurious stone pattern. This case dispenses paper towels which are now extremely popular in the home, hotels and café's interior. This our latest "torel" model. The appearance of the case provides a natural stone luxurious finish. The lid goes down as the paper towels are dispensed. The lid provides enough weight to firmly hold the last paper towel. The weight of the lid is designed so the action of dispensing a paper towel needs one hand only. It can also be used for paper kitchen towels.

Organizer Tsutsu
